Parmila Lama

SUMMARY

*Highly self-motivated and goal-oriented software professional committed to pursuing a **long-term career change in Data Analytics**. Offers a demonstrated history in automation solutioning, python programming, presentation composition and good communication skills.*

Data Analytics Projects

1. Streamlit web data application for UNESCO Heritage Site Visualization on UNESCO Heritage Site 2021 dataset.
2. EDA on IMDB Movie Dataset - Academic Project
3. IPL 2008 -2017 Dataset analysis and Visualization in Tableau - Academic Project
4. Data Analysis using SQL on IMDB Movie Dataset
5. Contributed in building Custom Test Dashboard Generator which is published in UiPath Marketplace.

PROFESSIONAL EXPERIENCE

Senior Software Analyst
Capgemini

Jul '21 - Present
Mumbai

RPA Automation Solution Architect in the QET COE Team

Responsibilities:

1. Identifying the manual and effort consuming processes.
2. **Feasibility and fitment Analysis** of the process for Automation.
3. Develop RPA automation solution for the identified processes that included framework **designing, bot development, test and maintenance.**
4. **Potential ROI Analysis** and presenting the effectiveness of the bot to the senior leadership team and stakeholders and prospective clients.
5. **Presentation Composition**, COE Newsletter creation.
6. Training and grooming new team members.

Projects:

1. Document Validation automation with Python and UiPath which involved **80+ automated rules** that helped the team to avoid doing these checks manually and saved time and effort.
2. **Robust, Reusable Test Automation Framework developed in UiPath** with Reporting Mechanism integrated within it that is flexible for the test automation of SAP, Oracle & SFDC.
3. SAP Plant Creation process automation in RPA that made the process **80% faster** with **reduced manual errors**.
4. Oracle HRA process automation that resulted in **faster and error free process**.

Software Analyst
Capgemini

Jul '20 - Jun '21
Pune

Quality Analyst

Responsibilities:

1. Requirement Analysis and development of System Integration and End-To-End Test Scripting.
2. Test Execution and Reporting the Application health to the stakeholders.
3. Conduct Defect Triaging meeting with the Development Team.
4. Develop Automated-bot solutions.
5. KT to the new team members.

Projects:

1. Molex Digital Transformation SFDC SIT and E2E Testing. **High number of valid defects raised**, that included critical bugs.
2. SAP RPA bot solution creation as a part of the COE team alongside the project.

Software associate
Capgemini

May '19 - Jun '20
Pune

Software associate

Responsibilities:

1. Software Requirement Analysis.

2. Test scripting in Selenium Java.
3. Test case creation.
4. Attended Training on SQL, Java, Selenium, Testing, RPA-UiPath

TECHNICAL SKILLS

1. **Programming/Query Language:** Python (Pandas, NumPy, Matplotlib, Seaborn), SQL, Core Java
2. **Tools:** Jupyter Notebook, UiPath, Tableau, Excel, Jira
3. **Key Skills:** Robotic Process Automation(RPA), EDA, Data Visualization, Data Analysis, Agile Development
4. **Big Data & Cloud (Basic):** AWS, Hadoop, Hive
5. **Database:** MySQL

Soft SKILLS

1. Communication and Presentation Skills
2. Presentation Composition
3. Data Analysis
4. Effective Research
5. Critical Thinking

EDUCATION

Post Graduation Program in Business Analytics   Sep '21 - Present
Loyola Institute of Business Administration   Chennai
Modules Covered:

1. Python for Business Analytics
2. EDA & Data Visualization
3. Excel Effective Communication | Data Storytelling
4. Database (Advanced SQL) | Big Data (Hadoop)
5. Machine Learning

Bachelor's of Science in Information Technology   Jul '16 - May '19
Mumbai University   Navi Mumbai
GPA Obtained : 9.43
Subjects Covered : Mathematics, Java, Computer Networks, Python & Database

Trainings & Certification

1. Google Data Analytics Professional Certification. In Progress
2. Agile Software Development - Coursera Course by University of Minnesota
3. DevOps Culture & Mindset - Coursera Course by University of California
4. RPA Advanced Developer - UiPath

Awards & Recognition

1. Automation Practitioner Badge - Capgemini
2. Automation Engineer Level 1 - Capgemini
3. Bright Debutant Award in COE Team - Capgemini
4. Star Performer Award - Capgemini
5. Meritorious Performer Award for excellent performance in Training provided to fresher's By Capgemini.
